## Task 1:

Assumptions

- I will assume that there are multiple requirements from visitors in each booking.
- Staff year experience can be the multiple attributes because staff need at least from 1 to 3 animals they are comfortable with.
- Organizations must have their own primary identifier (pi) because an organization can support multiple reserves. So they can not rely on reserves to exist.

Task 2:

** Assumptions **
- The requirement of educational programs and volunteer programs can be more than one.
- The requirement of data collection in the research program can be more than one.
- The staff educational qualification can be more than one.
- The table of students enrolled in the research program can be linked with students enrolled in the program table.
